VERNICI LOW VOC

LOW VOC paints

Le vernici utilizzate per le ante laccate dei modelli del Gruppo Lube sono tutte Low Voc, realizzate con materie prime selezionate con il preciso scopo di ridurre significativamente i rischi di manipolazione ed esposizione per l'operatore e l'utilizzatore finale.

Tali prodotti rispondono ad elevati standard di sicurezza. In particolare sono conformi al regolamento REACH, non contengono pertanto prodotti chimicamente considerati pericolosi come le sostanze CMR e SVHC, sono conformi agli standard di emissioni indoor COV (Composti Organici Volatili) attraverso la Certificazione GREENGUARD e rispettano i requisiti di resistenza e durabilità secondo le normative nazionali di riferimento riconosciute anche in Europa.

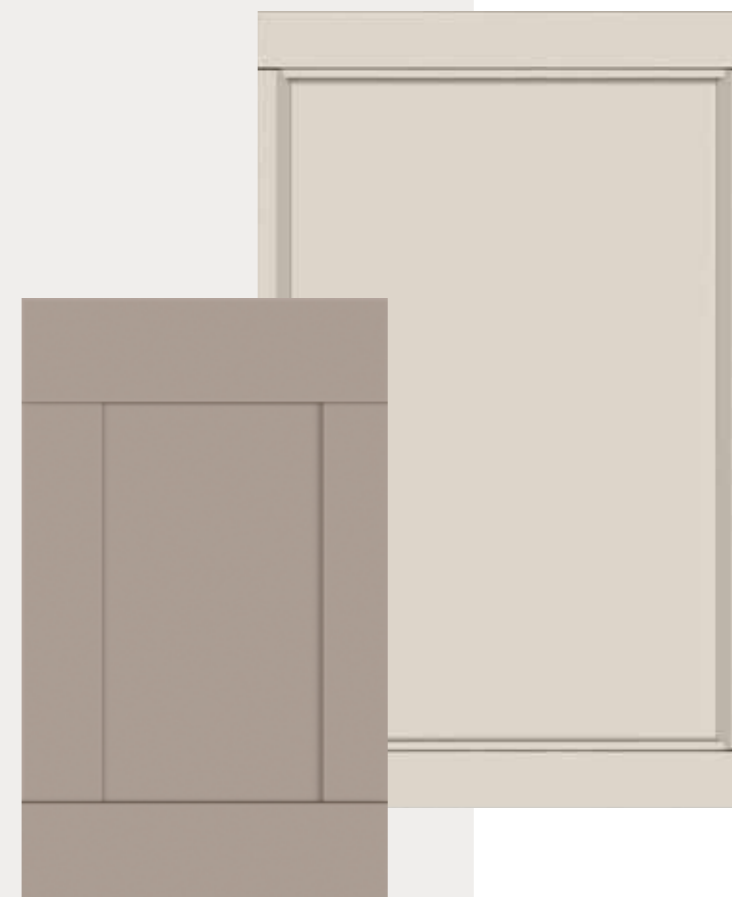

The paints used for the lacquered doors of Lube models are all Low VOC, made with selected raw materials with the express purpose of significantly reducing the risks of handling and exposure for the operator and the end user.

These products meet high safety standards. In particular, they comply with the REACH regulation, therefore they do not contain products deemed to be chemically dangerous such as CMR and SVHC substances; they comply with VOC (Volatile Organic Compounds) indoor emission standards through the GREENGUARD Certification and meet the resistance and durability requirements according to the reference national standards, also recognized in Europe.
