TECHNICAL CHARACTERISTICS

Piano in legno MDF sp. 25 mm verniciato con laminato liquido semiopaco.
Il laminato liquido è una vernice caratterizzata da una particolare durezza, grazie alla presenza di microsfere di vetro che permettono una maggiore resistenza al graffio e un minore assorbimento dei liquidi.

25 mm thick MDF top coated with semi-matte liquid laminate. Liquid laminate is a particularly hard finish, thanks to the presence of glass microspheres that provide greater scratch resistance and reduced liquid absorption.
