

Il classico è di moda

Riscoprire l'autenticità ed il valore del saper vivere con gusto.

Veronica è caratterizzata da un design dalle linee sobrie e pulite.

L'ineccepibile qualità dei materiali utilizzati e la massima cura nei dettagli costruttivi si combinano per garantire un'offerta senza tempo.

Versatilità e funzionalità sono gli aspetti distintivi di questo modello di cucina, studiato per accogliere e razionalizzare l'ambiente cucina.

Veronica è una cucina che invita a riscoprire i valori tradizionali e sempre attuali del ricevere, i valori del vivere con gusto.

Classic style is in fashion.

Rediscovering tasteful living's authenticity and value.

Veronica is characterised by a design with understated and clean lines. The flawless quality of the materials used and the utmost care in the construction details combine to guarantee a timeless offer.

Versatility and functionality are the very distinguishing features of such model, designed to welcome and rationalise the setting.

Veronica is a kitchen that invites to rediscover the traditional and still valid value of entertaining, the value of tasteful living.

disegno cornice design cornice

APERTURA VERTICALE

L'anta ad apertura verticale, potendo essere sollevata completamente verso l'alto, consente un accesso totale all'interno del pensile. Ideale per l'impiego in mobili a colonna per nascondere ad esempio apparecchi elettrici, o pensili con corpi mobili sovrastanti, ha la chiusura ammortizzata e la possibilità di regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING

Doors with vertical opening movement can be fully raised to fully access the inside of the wall unit.

Ideal for use on column units to conceal electrical appliances for examples, or on wall units surmounted by mobile units.

The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

PENSILE CON APERTURA ANTE A PACCHETTO

Il meccanismo d'apertura ante a pacchetto è idoneo sia sul pensile H 72 che H 96; la regolazione della forza di apertura può essere impostata in modo esatto in base ai pesi dei frontali, la chiusura è ammortizzata e la cerniera centrale clip si contraddistingue per l'innovativa tecnologia che garantisce la sicurezza per le dita.

WALL UNIT WITH LIFT-UP FOLDING DOOR

The lift-up folding door opening mechanism is suitable for wall units with H 72 or H 96; the opening force can be adjusted precisely according to the weight of the fronts, while the closing movement is cushioned and the central clip-on hinge features innovative technology for safeguarding the fingers.

SCHEMA MONTAGGIO
LIMITATORE
LIMITER INSTALLATION
DIAGRAM

Per evitare l'interferenza dell'anta in fase di apertura con cornici o mensole, si può richiedere il limitatore dell'angolo di apertura cod. 5620005

In order to avoid that the door interferes with cornices or shelves during the opening movement, it is possible to request an opening angle limiter: code 5620005

PENSILE CON APERTURA A RIBALTA

Le ante aprendosi verso l'alto consentono di avere un' ampia visione d'insieme all'interno del mobile. In questo modo è possibile un comodo accesso agli oggetti contenuti al suo interno e, dal punto di vista ergonomico, molto vantaggioso. La regolazione della forza di apertura può essere impostata in modo esatto in base al peso del frontale. Grazie all'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata e un'unica manovra è sufficiente per regolare il frontale tridimensionalmente grazie all'assenza di cerniere e al sistema di aggancio clip.

WALL UNIT WITH FLAP DOOR

The doors that open upwards guarantee ample overall visibility inside the cabinet. In this way, all objects housed inside the cabinet can be comfortably accessed, making the system highly advantageous from an ergonomic perspective. The opening force can be adjusted precisely depending on the weight of the front. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and a single manoeuvre is required to three-dimensionally adjust the front, thanks to the clip-on system and the absence of hinges.
